

THERE WHEN I  
**CAN'T BE**

 **TASER**  
PROTECT LIFE

**CHECKLOK™**

### BACKGROUND CHECK REQUIRED

In order to keep this powerful technology out of the wrong hands, the TASER C2 uses an innovative new background check system called CheckLok™. The TASER C2 system is digitally locked during shipment and will not function until the owner of the device completes a secure identification and background check to obtain a unique activation code. You can either call an 800 number or visit our secure website to complete the CheckLok process.

### LIFETIME REPLACEMENT GUARANTEE

When fired, the TASER C2 will deliver a 30-second energy burst to incapacitate a threat. During this window of opportunity, you can leave the TASER C2 to keep the attacker incapacitated while you escape. Send us a copy of the police report showing you used your C2 to protect yourself, and we will replace your unit free of charge. Your life is worth more to us than the cost of a TASER C2.

I WILL CONTROL MY OWN  
**DESTINY**

 **TASER**  
PROTECT LIFE

## SAFE

The TASER® C2 personal protector, designed with your lifestyle in mind, can safely stop a threat up to 15 feet away, protecting you and your family from a safe distance. With the TASER C2, personal security fits easily in your pocket or purse and operates with the simple push of a button (with no recoil).

## EFFECTIVE

TASER technology is proven the most effective option that can truly stop an attacker, even those under the influence of drugs and alcohol, without taking a life.

## EASY TO USE

Unlike conventional self-defense options, the TASER C2 can be effective anywhere on the target's body, making it easier to stop a threat without precision aiming required.

### EFFECTIVE TARGET ZONES

## POLICE PROVEN

Over 270,000 law enforcement professionals in 40 countries have come to rely on TASER devices to protect life. When lives are on the line, police around the world rely on TASER systems to quickly incapacitate even the most dangerous subjects.

## CONVENIENT CARRY

Protection is more than personal - it is a duty to care for the ones we love. With the TASER C2, you can have police proven, effective protection that is convenient and legal to carry in most states without special permits required.\*

\*TASER devices are not considered firearms by the U.S. government. They can be legally carried (concealed or open) without a permit required in 40+ states. Prohibited citizen use in DC, HI, MA, MI, RI, NY, NJ, WI and certain cities and counties. CT and IL legal with restrictions. Check local laws on carrying electronic control devices.

## ADVANCED TASER TECHNOLOGY

The TASER C2 is the most sophisticated personal protection system ever developed. TASER systems are Electronic Control Devices (ECDs), which use a replaceable cartridge to deploy two small probes that are attached to the TASER C2 by insulated conductive wires with a maximum length of 15 feet (4.5 meters).

The TASER C2 transmits electrical pulses along the wires and into the body of the target, overstimulating the sensory and motor functions of the peripheral nervous system, causing overwhelming incapacitation.

### ANTI-FELON ID SYSTEM

Serialized Tracking System

### REPLACEABLE CARTRIDGE

Safely Stops Attackers

### TRIGGER SAFETY COVER

Accidental Activation Protection

### INTEGRATED LED LIGHT

Illuminates Dark Environments

### OPTIONAL LASER SIGHT

Provides Precision Accuracy
